

# Vaccine Update 458 – Implementation of the National Immunisation Strategy survey

## Have your say: help shape the implementation of Australia's National Immunisation Strategy

On behalf of the Australian Government Department of Health, Disability and Ageing, the National Centre for Immunisation Research and Surveillance (NCIRS) is facilitating consultation to assist with implementation planning for the National Immunisation Strategy 2025–2030.

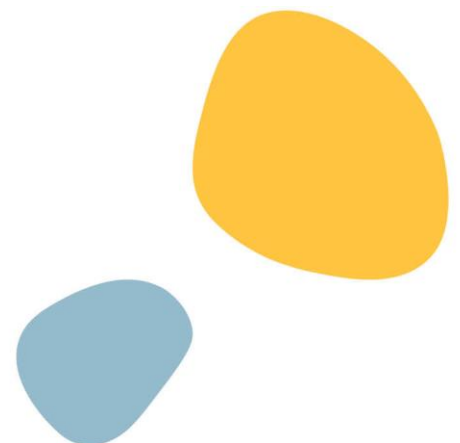

NCIRS is inviting members of the immunisation community – including healthcare and immunisation providers, researchers, community members and others – to share their insights and ideas via an online survey.

The survey aims to capture:

- new initiatives, or the expansion or modification of existing activities, to address each of the strategy's six Priority Areas
- barriers to progressing these activities and initiatives
- the resources and mechanisms required to implement these activities and initiatives.

The survey is confidential and will take about 15 minutes to complete. To access the survey, please [click here](#).

The survey will close COB Friday, 3 October 2025.

# National COVID-19 Vaccine Program (NCVP) ceasing clinical advice

From 19 September 2025, the National COVID-19 Vaccine Program ceased providing clinical advice to vaccine administrators regarding vaccine administration errors (VAEs). Providers are requested to continue to report VAEs to the WA vaccine Safety Surveillance System (WAVSS) via [safevac.org.au](https://safevac.org.au).
